Fruit Trees for 2020

Almond

Almond 'All In One' Heavy crops of soft shell nuts with sweet, flavourful kernels. Hot summer needed to ripen nuts. Can tolerate warmer climates. Self Fertile.	April
Almond 'Burbank' Soft shelled variety. Ready late Summer. Plant in a moist well drained situation. Prune in Winter. Heavy Bearing. Self Fertile.	July

Apples - Classic

Apple 'Braeburn' Usually eaten as a light olive green apple overlaid with striped muted red. This apple is crisp, sweet, and has very good flavour. Late Season. Grafted on semi dwarf mm106 stock.	July
Apple 'Cox's Orange' Medium sized deep yellow striped, streaked, and splashed with red apple is regarded as the finest 'English style' apple there is. Juicy, tender, yellow flesh. Mid season. Grafted on semi dwarf mm106 stock.	July
Apple 'Fuji' Large, sweet, and crisp apple. Heavy crops of green/yellow skin fruit with pink stripes. Late season. Grafted on semi dwarf mm106 stock.	July
Apple 'Gala' Firm, sweet, and crisp. Crimson stripes over yellowish green skin. Thinner skin than most apples. Early - mid season. Grafted on semi dwarf mm106 stock.	July
Apple 'Golden Delicious' Juicy, sweet, honeyed, and excellent. Highly productive tree. Fruit medium sized, clear yellow, sometimes lightly russeted. Mid - late season. Grafted on semi dwarf mm106 stock.	July

PH: (06) 755 2487 • Fax: (06) 755 1007 • 1217 Devon Rd, New Plymouth • Email: info@bigjims.co.nz

<p>Apple 'Granny Smith' Large crisp, white fleshed green apple. Flavour is tart, becoming very sweet if tree ripened. Upright vigorous tree producing a heavy and regular crop. Late season. Grafted on semi dwarf mm106.</p>	July
<p>Apple 'Initial' An exceptionally good eating, early season red Gala-type apple with high aroma, low acid and high sugar. Easy to grow and tolerant to a large range of apple diseases. Spur bearing. Grafted on Semi Dwarf MM106 stock.</p>	July
<p>Apple 'Kidds Orange' Cross between Cox's Orange and Delicious. The skin is orange, overlaid and streaked with red. The flavour is complex and rich. Grafted on semi dwarf mm106 stock.</p>	July
<p>Apple 'Monty's Surprise' A crisp, good eating late ripening apple that also cooks well. Fruit can be very large on a vigorous, high health tree. Fruit shiny red over light green background. Grafted on semi dwarf mm106 stock.</p>	July
<p>Apple 'Pacific Rose' You'll love the taste of this high quality, fresh eating apple that was bred in NZ. Quite large Apples with rosy red skin and crunchy sweet flesh to delight the taste buds. Ripe around April. Grafted on semi dwarf MM106 stock.</p>	July
<p>Apple 'Pinkie' New disease resistant apple. Superb brightly coloured blush pink apple with good acid/sugar balance in mid season. Forms an attractive small weeping tree, best staked. Grafted on semi dwarf m116 stock.</p>	April
<p>Apple 'Red Delicious' Conical, deep red fruit. Tough skinned, juicy, rather coarse textured. Late season. Grafted on semi dwarf mm106 stock.</p>	July
<p>Apple 'Royal Gala' Crisp and sweet, juicy reddish green fruit. Heavy cropping, but smallish sized fruit. Early season. Grafted on semi dwarf mm106 stock.</p>	July
<p>Apple 'Roy's Pearl' Cross between 'Pacific Rose' and 'Liberty'. Black Spot Resistant, Mid-season picking from March to April. Crisp and juicy, more so than any other apple seen in a fruitier when tree ripened. Fruit is small to medium, a good size for the lunchbox. Grafted onto semi dwarf M116 rootstock. 3x2m.</p>	April

PH: (06) 755 2487 • Fax: (06) 755 1007 • 1217 Devon Rd, New Plymouth • Email: info@bigjims.co.nz

<p>Apple 'Splendor' Delicious, large, pinkie red apple with crisp, breaking, white flesh. Sweet fruit with good flavour. Late season. Grafted on semi dwarf mm106 stock.</p>	July
<p>Apple 'Sweetie' A cross between Braeburn and Gala that ripens just before Royal Gala. Has a sweet flavour without the tartness of Braeburn. Skin has a green-yellow colour that has a red blush and juicy cream-white flesh. Grafted on semi dwarf m116 stock.</p>	April
<p>Apple 'Topaz' A modern disease resistant apple. Good size apple with yellow skin, almost completely overlaid with red and crimson flush. The flesh is crisp and cream coloured. Grafted on semi dwarf m116 stock.</p>	April

Apples - Classic Dwarf

<p>Apple 'Braeburn' Dwarf Usually eaten as a light olive green apple overlaid with striped muted red. This apple is crisp, sweet, and has very good flavour. Late Season. Grafted on dwarf m27 stock.</p>	July
<p>Apple 'Cox's Orange' Dwarf Medium sized deep yellow striped, streaked, and splashed with red apple is regarded as the finest 'English style' apple there is. Juicy, tender, yellow flesh. Mid season. Grafted on dwarf m27 stock.</p>	July

Pomegranate

***Pomegranate granatum* 'Dwarf'**

This dwarf version of the fruiting pomegranate is perfect for container gardeners. The small 2 inch fruits are edible and the fruit hangs on the plant for many months adding to its ornamental appeal.

April

Prune

Prune 'Italian'

The world's most popular prune plum. Dark purple skin with light amber flesh that turns red when cooked. Freestone with fine textured, rich flavour and sweet flesh. Vigorous, cold hardy tree.

July

Prune 'Stanley'

Prolific producer. Dark blue skinned smaller fruit with sweet and juicy golden flesh. Self-fertile and useful pollinator. Fruit is bigger and sweeter if the crop is thinned while small. Late season.

July

Quince

Quince 'Pineapple'

Firm aromatic white flesh with a delicious pineapple-like flavour. This large pear-shaped fruit has smooth, golden yellow skin that is good for fresh eating or for fine jellies. Self Fertile.

July

Quince 'Smyrna'

Fruits large to very large, furrowed, oblong/pear-shaped, golden-yellow, very aromatic. Flesh mild, tender, light yellow, excellent quality. Fruits keep very well. Moderately vigorous tree with unusually large leaves.

July

Quince 'Taihape'

Fruit is a lemon colour and the tree is a spectacular sight when in full fruit. Tender and sweet when cooked. Yellow and smooth fruit. Self Fertile.

July
